ABOUT THE CEO

Dr. Kayhan Moayeri is an entrepreneurial pharmacist who specializes in business development and drug discovery with two decades of experience. As CEO of Amerix Pharmaceutical, Dr. Moayeri combines his unique experience in both business and the pharmaceutical industry to oversee the quality operations of the company. Prior to founding Amerix Pharmaceutical, Dr. Moayeri worked at Sanofi, a French multinational pharmaceutical company and a global healthcare leader that is highly focused on patient needs. He then found Amerix Pharmaceutical to head up their global business development division. Dr. Moayeri is an expert in drug formulation, drug discovery and contract manufacturing. Over the last few years, he has masterminded contract manufacturing projects worth eight figures of Canadian dollars. Dr. Moayeri holds a Doctor of Philosophy in Pharmacy from Azad University and a Master of Business Administration from University of Nebraska-Lincoln.

ABOUT AMERIX PHARMACEUTICAL

Amerix Pharmaceutical is committed to serving as the preferred solution for your molecule from the discovery stage to commercialization.

Amerix Pharmaceutical provides the competitive advantage as you move your compound from discovery to commercial manufacturing. Our organization is well positioned to provide custom and tailored solutions and to provide the best solution of pre-clinical and commercial drug products – from small-scale to commercial-scale production. We can provide raw materials and cGMP manufacturing of API.

We offer leading technologies, global facilities & services and a track record of successful projects. Amerix Pharmaceutical will help you create a tailor made business model to meet your goals, saving you cost, headaches and time.

SPECIALITY SERVICE

We have strong and proven capability in aseptic dry powder filling for cytotoxic and oncology products. Our facility can produce high quality products in liquid, dry powder, lyophilised and crystallite forms.

**Powder Filled Vials**
For cytotoxic parenteral, Amerix Pharmaceutical offers vials filled by powder. On top of the consistent monitoring of humidity, temperature, pressure, laminar air flow, non-viable airborne particles in the isolator, we are feature the following:
- Clinical to commercial scale powder vial filling
- A minimum 1 kg of powder
- Vial sizes ranging from 6 - 100 mL
- Fill weight: 30 mg per vial to 5 g per vial
- 1 to 8 filling heads

**Advanced process:**
Class 100 isolator
Isolator sterilization by vaporized hydrogen peroxide (VHP)
CIP/SIP of powder hopper
100% fill weight check as well as in-process fill weight check
Auger fillers designed for precise powder dosage
Online visual inspection
Meet the requirements of both the FDA and EU regulatory bodies

PHARMACEUTICAL PROJECT

We are the company of choice for many clinical studies and commercial pharmaceutical products. We handle every aspect of sterile liquids, lyophilized biological or pharmaceutical product, aseptic filling and/or terminally sterilized on a commercial scale.

Our experiences ensure that no matter the size of project, you will receive the same attention and expert handling.

MISSION STATEMENT

With client satisfaction always being our top priority, we promise to offer you pharmaceutical products of the highest quality, delivered to you on time, on budget. Your projects will be completed with your individual needs and expectations met.
